

Spencer Gibson  
*Interned with Professor Dainotti in 2020 and 2021*

I worked with Professor Maria Dainotti from Summer 2020 to the end of December 2021. Professor Dainotti lead three research projects that I co-authored. I found working with her to be a wonderful experience. Professor Dainotti provided excellent mentorship, clear deadlines, and encouraged those of us on the project to do our best work. I am confident that without her scientific contributions, guidance, and leadership, the projects would not be as successful as they have been.

Professor Dainotti is an incredible researcher as well as a kind and understanding person. She helped me take on a leadership role in two projects which immensely helped my development as a researcher and gave me a solid start in academia. I am grateful for my time working with Professor Dainotti.

Sincerely,

A handwritten signature in black ink, appearing to read 'Spencer', with a stylized, flowing script.
