Testimonial

I am Rohit Mandal, a 2nd-year MS student at the Indian Institute of Space Science and Technology, Kerala, India. I had the privilege of working with Dr. Maria Giovanna Dainotti on a project focused on Type Ia Supernova Cosmology. Under her expert guidance, I developed my skills in data analysis, statistical modeling, and collaborative teamwork. Working with Dr. Dainotti also provided me with valuable insights into the exciting and challenging field of high-energy astrophysics and cosmology. Our collaboration led to a publication that is currently under review. Her mentorship has played a pivotal role in shaping my academic growth, and I deeply admire her leadership in managing the project and her unwavering support throughout the research process.
